### VIA FCC COURIER

Ms. Marlene H. Dortch Secretary Federal Communications Commission Portals II, Filing Counter, TW-A235 445 12th Street, S.W. Washington, D.C. 20554

Dear Ms. Dortch

Submitted on behalf of Amigo Radio, Ltd., licensee of FM Broadcast Station KXXS, Marble Falls, Texas, are an original and four (4) copies of a Supplement to its May 30, 2003, Petition for Rule Making requesting a downgrade and re-allotment of the KXXS channel to Dripping Springs. Texas. Any questions concerning this matter should be addressed to undersigned counsel.

Respectfully submitted

Richard A. Helmick

### SUPPLEMENT TO PETITION FOR RULE MAKING

On May 30, 2003, Amigo Radio, Ltd. ("Amigo"), licensee of FM Broadcast Station KXXS. Channel 285C2, Marble Falls, Texas, through its attorneys and pursuant to Sections 1.401 and 1.420 of the Commission's Rules, filed a Petition for Rule Making (the "Petition"), to request that the Table of Allotments for FM Broadcast Stations, Section 73.202 (b) of the Commission's Rules, be amended to substitute Channel 285A for Channel 285C2 at Marble Falls, Texas, re-allot Channel 285A to Dripping Springs. Texas, and modify the license of Station KXXS to specify operation on Channel 285A at Dripping Springs. Amigo hereby supplements its Petition so as to include the attached demographic and growth projections, excerpted from an extensive demographic study prepared by DeskMap Systems, Inc. in July 2001 for the Dripping Springs Independent School District, and obtained through the Greater Dripping Springs Area Chamber of Commerce; this information was not available to Amigo at the time it filed its Petition.

### DRIPPING SPRINGS, TEXAS, DEMOGRAPHIC TRENDS ANALYSIS

In July 2001, DeskMap Systems, Inc., a consulting and mapping company based in Austin, Texas, produced a demographic study for the Dripping Springs Independent School District ("DSISD" or the "District") in order to provide the District with information necessary to plan for future student enrollment needs, including an analysis of local building trends and growth factors affecting the District. The DSISD is 198 square miles and is located almost entirely in northern Hays County with a small portion of the school district in southwestern Travis County; the city of Dripping Springs is located in the center of the District.

The following information is excerpted from the DSISD Demographic Study:

- the population of the City of Dripping Springs grew 50% during 1990-2000 (see attached table), a slightly larger gain than Hays County, Texas (of the 254 counties in Texas. Hays County ranked number 13 in percentage population growth between 1990 and 2000);
- according to the Hays County Appraisal District Office, there are 4,204 residential
  units within the boundaries of DSISD of which 83% are single family homes, 15%
  are manufactured homes, and 2% are multi-family homes (see attached table);
- the number of residential units in the District grew by 139 from January 2000 to January 2001, a 3.4% annual increase;
- during the 1990-2000 period, the Dripping Springs' labor force increased 64.4% (from 505 to 830 persons):
- the DSISD student enrollment grew 32% during the five year period ending with the 2000-01 school year and is projected to grow in the range of 24-45% over the next five years and as much as much as 59% over the next 10 years (see attached enrollment trends and projections tables): and
- the DSISD population increased from 7,089 (1990 U.S. Census) to 13,304 (2000 U.S. Census estimate), an increase of 87.7%, and is projected to increase to 16,630 in 2005, an increase of 25% (see attached demographic trend report).
